MEMORANDUM FOR: Director of Logistics

VIA: Deputy Director for Administration

FROM:
Director of Security

STAT

SUBJECT: Security Enhancement Project for the
Headquarters Compound and Building

1. Pursuant to the recent concerns raised by the Deputy Director of Central Intelligence (DDCI), the Office of Security, in consultation with the Office of Logistics, conducted a study of areas on the Headquarters compound that are potentially vulnerable to a "Beirut style" terrorist attack. Areas at the perimeter of the compound as well as entry points into the Headquarters Building were examined. The end result of this review has identified a number of candidate locations for enhancement and specific equipment that shows unique promise for thwarting a terrorist vehicle attack.

2. The thrust of a recommended course of action to raise the level of protection against such a terrorist vehicle attack is focused at providing static barricades at selected positions on the compound and the implantation of hydraulically operated barricades in the roadbed at a number of pre-determined access points. The sites selected and the treatment suggested for each is set forth as follows:
